# Adult heart services

Our adult heart services deal with all aspects of cardiothoracic conditions, including medical and surgical conditions, from elective through to emergency care

## Royal Brompton Hospital Paul Wood Ward

Paul Wood Ward is a 31-bed mixed cardiology and cardiac surgery unit, which is dedicated to the care of patients with adult congenital heart disease (ACHD) and for patients undergoing investigations and treatments for other cardiac related diseases.

## York Ward

York Ward is a 34-bed mixed cardiology and pre-op cardiac surgery unit, which takes patients who need investigations and treatment for a wide range of cardiac problems, cardiology, heart failure and the implantation of cardiac devices.

## Princess Alexandra Ward

Princess Alexandra Ward has 35 beds and takes patients who require cardiac surgery and surgery for a variety of lung conditions or investigations before surgery.

## Elizabeth Ward

Royal Brompton's 26-bed state-of-the-art high dependency unit (HDU) takes cardiology and cardiothoracic surgical patients, enabling us to invasively and non-invasively monitor and care for patients requiring mechanical (IABP) and respiratory (CPAP) support. Staff rotate into this unit to support their development and skills in caring for HDU patients.

A lifetime of specialist care

### **Sir Reginald Wilson Ward**

Sir Reginald Wilson Ward is Royal Brompton's private patients ward and has 28 single rooms. Patients requiring investigations and treatments for cardiothoracic conditions are cared for here, including cardiology, cardiothoracic surgery and respiratory medicine.

### **Harefield Hospital Maple Ward**

Staff on Maple Ward care for patients undergoing cardiology procedures and investigations. The ward has 15 level 1 beds, made up of five transplant beds and 10 cardiothoracic surgical beds.

### **Cedar Ward**

Cedar Ward is Harefield's adult surgical ward. It has 25 level 1 beds for pre- and post-cardiothoracic surgery patients. Cedar is a fast-paced and dynamic area with fantastic learning opportunities.

### **Acute cardiac care unit**

The acute cardiac care unit consists of two wards – Acorn and Oak – with a total of 50 beds. Staff here specialise in caring for patients who require a variety of cardiac investigations and interventions. They are equipped to care for both level 1 and level 2 patients.

The unit has a 24-hour primary angioplasty service, which has one of the fastest average door-to-balloon times in the UK.

### **Juniper Ward**

Juniper Ward is Harefield's private patients ward and has 20 beds, four HDU beds and 16 single rooms. Staff here specialise in caring for a range of patients with complex needs, including aortic root surgery, valve procedures, surgical ablation and minimally invasive cardiac and thoracic surgery. Care is also provided for cardiology patients undergoing elective procedures.
